

DEMI

Our entry-level desktop / deskside supercomputer, DEMI is effectively half of our STELLETTO workstation - packing power and performance into a single node. Suitcase-sized and quiet, DEMI is your go-anywhere supercomputing solution. Whether you use it in the office or take it on the road, DEMI can connect to our powerful eSTELLA cloud cluster for extra compute power in a pinch.

Please find our base system specifications below. Starting here, we make upgrades based on your specific computational requirements. Get exactly what you want, right here:

Base Systems Starting at \$5,000

(Prices may vary.)

Dimensions	28x22x10 in. / 712x559x254 mm.
Weight	59 lb. / 26.8 Kg
Processor Support	(1) Intel 5650
Core Logic	Dual PCIE I/O Controllers
Memory	12GB DDR3 1333 ECC
Expansion Slots	(4) x16 PCIe 2.0
CUDA Support	(1) Nvidia Tesla C2050
Storage	2TB HD + 120GB SSD
LAN	(2) 1Gb/s Ethernet – Public Net / Private Net
OS Support	RHEL, Scientific Linux, CentOS + CUDA IDE (Eclipse-based) + TORQUE + GANGLIA Others available upon request.
Extras	Peripherals / Drives / Ports built to your specifications.
